

=====

PUBLIC LEGAL AND ETHICAL DECLARATION – HF SIGNAL 01

Updated version – with binding operational conditions (May 2025)

=====

HF SIGNAL 01 is a civil, independent, and humanitarian project.

Its purpose is to make surrender recognizable even by automated systems.

Operational use (military, armed, or institutional) is strictly prohibited without:

- a written agreement with the Human Flag Association
- technical verification and public declaration
- traceability of signal activations

If the Association is unable to install the system directly, the user must:

- demonstrate correct integration of the signal
- provide access to logs or technical inspection
- accept external audit or remote verification

- Responsibility for improper or undeclared use falls entirely on the entity implementing the system.

+ Full responsibility for any unauthorized or undeclared use lies with the implementing party.

These conditions apply ****to all actors****, with no political or national exceptions.
